

ESTHER (ESTY) PARADNY

Skills

Summary

I have just completed my final year of university at Manchester Metropolitan University, studying Fashion Design and Technology, specialising in menswear and sportswear. This course has pushed me to my limits and allowed me to explore my own creative purpose. Within my 3rd year of this course I completed a year long placement working at Portwest as a Trainee Junior Product Manager for workwear as well as completing tasks alongside the design team. This experience allowed me to develop my knowledge and understanding on how the industry runs, from design to consumer.

Education

Manchester Metropolitan University – Manchester Fashion Institute 2018–2022
BA Fashion Design and Technology (Menswear & Sportswear)

Module Overview:

Fashion Design: Completing the design process from start to finish, beginning with extensive research, to making the documentation required for factories, to sampling, to sourcing fabrics and trims, to making the garment and quality check.

Fashion Enterprise: Working to find and fulfil a gap and need within the fashion market, looking into product/service development, marketing and finance.

Fashion Cultures: Looking at fashion from a new perspective, and the impact and individual can have on its surroundings.
